A Sustainable Innovation Workshop
22-24 Sept. ‘17
Where?
Green Garage, EUREF-Campus
Torgauer Str. 12-15
10829 Berlin-Schöneberg

For Whom?
Whether you are a social scientist, an engineer or a designer – students of all study backgrounds are invited to join!

The GreenCycle Academy is a workshop based on an open innovation approach that brings together creative students from all backgrounds. During this event, you will learn and apply various methods for idea generation and design thinking tools to find first solutions for the specific challenges. This is your opportunity to start your career as a climate innovator!

What are the challenges in 2017?
1. How would you design a business in a sustainable society?
2. How would you design global waste streams for a sustainable future?

Prizes
Winning teams are invited to the company’s headquarters in Neckarsulm (16/17 October), where they will have the opportunity to pitch and refine their idea. The final winner will receive a tailor-made full-day coaching session!

Please register until 31 August:
